

How to spend a perfect ski day in the Alps

By Alexander Tombach

Background

- [Relevance] – *Why would people do this?*

The Alps is a giant mountain chain in the heart of Europe that is home to hundreds of winter sport resorts. Millions of tourists come every year to ski and snowboard in great slope conditions. There are more and more English speaking people visiting. Often, they are not very familiar with the skiing culture (which is much more than simply skiing). Therefore, a tutorial about a perfect ski day in the Alps is relevant and probably appreciated by many.

- [Relevance] – *This tutorial is useful because...*

My website can provide an existing target audience with insider knowledge and self-shot useful footage about skiing in the Alps.

Design objectives & strategy

- *The goal of the design is to..*

show people all the great things you can do in a ski resort in the Alps.

make people looking forward to a skiing trip, to create desire for the Alps

inspire people and help them to make their ski trip fun

Site audience

- *This tutorial site will help people who...*

never have been skiing in the Alps

people who went skiing before, but they are looking for inspiration to do something new and fun in the mountains

- *Visitors include...*

Enthusiastic skiers age 16-35 (background knowledge: drinking age is +16)

People who like to experience the skiing culture and the party culture that goes with it

Online Ski Lessons

You can learn how to ski online, even though actually learning to ski needs to be done in real life. This website explains the important techniques and mechanics of skiing, showing how and why they work. When used in conjunction with ski lessons this can make learning to ski much quicker and more enjoyable.

How to Ski

The site explains why certain things are important, shows common mistakes that people make while learning to ski, and gives a few tips on things that can be tried to achieve the correct techniques.

The theory side of skiing is often overlooked, yet it is very important, and can make a large difference when learning to ski. Many people find that with an understanding of skiing's mechanics, it greatly helps them to improve, and to enjoy skiing even more.

Ski lessons can be expensive so why not use the information here to supplement them, and get the most out of your time on the slopes.

Easy to Understand

In general most of the components of skiing are very simple in part, but when all the different parts are put together, it can get a bit complicated. In this site explanations and diagrams are very carefully used to make all the components as easy to understand as possible, and show clearly how they all fit together.

Top Ski Tips

Gliding down a mountain through virgin powder with the sun glistening on surrounding snow covered peaks, all topped with a deep blue, clear sky, has got to be one of the most incredible feelings on earth... Here are a few tips for skiers of all levels to help you enjoy the sensation as much as I do!

The Basics

Gravity - This takes you from the top of the mountain to the bottom in the most direct route. This isn't always the safest or most desirable route so being able to steer and stop are key!

Balance - snow is slippery! Trying to balance whilst sliding down a mountain isn't easy! You need a stance that is comfortable but stable on the move.

Keywords

Site should be

- *Inspiring*
- *Modern*
- *Clear*
- *Simple*
- *Precise*
- *Visually Pleasing*
- *Easy to Navigate*
- *Understandable*
- *Cohesive*
- *Professional*

Site shouldn't be

- *Boring*
- *Confusing*
- *Hard to Navigate*
- *Ugly*
- *Complicated*
- *Hard to understand*
- *Too Fancy*
- *Difficult*
- *Unclear*
- *Generic*

Content for the site

The site should include content like...

- *Photos that I shot myself (skied for over 15 winter seasons in the Alps) about:*
 - *Slopes*
 - *Fun things to do with skis like Jumps, short radius vs long radius, Fun Park*
- *Content about what specialities to eat on huts*
- *Infos about Après Ski (Party in ski boots)*
